## Read Chapter 19

Bernie comes home on leave. How would he have travelled back from France? How long would it have taken?

Kit and her mum think Bernie is different- what could have changed him?

What would he be thinking being back at home after his time at the war?

Bernie doesn't want to play football with Kit? Why would he be reluctant to play?

They chat about the penalty shoot out- Do they remember it differently?

Kit feels she let Bernie down and doesn't want to take penalties.

Bernie has a different perspective on life now- on how important football actually is. Has he realised that playing football was about being a team and trying to achieve something together- not all about winning.

Kit hasn't learnt that lesson and still thinks winning is the most important thing.
